REFERENCE

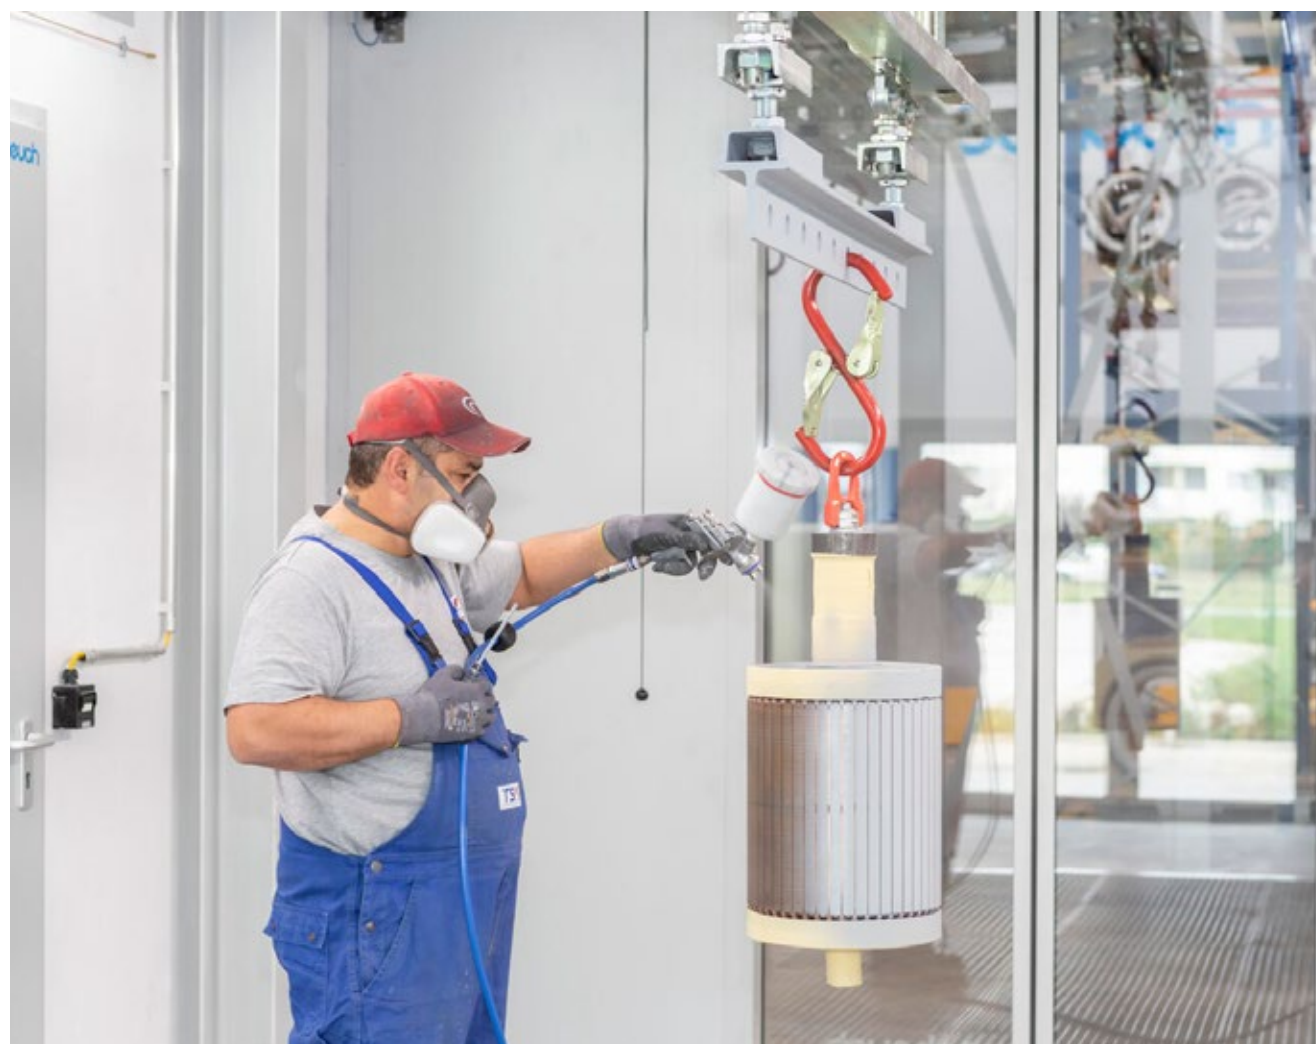

overhead CONVEYOR SYSTEMS

NIKO conveyor system provides an economic and flexible solution in conveyor systems for loads up to 2.000 kg, ideal for painting lines. The manual operation of our systems can also be combined with our power chain conveyor in order to power segments or the entire conveyor.

CRANE WAGON

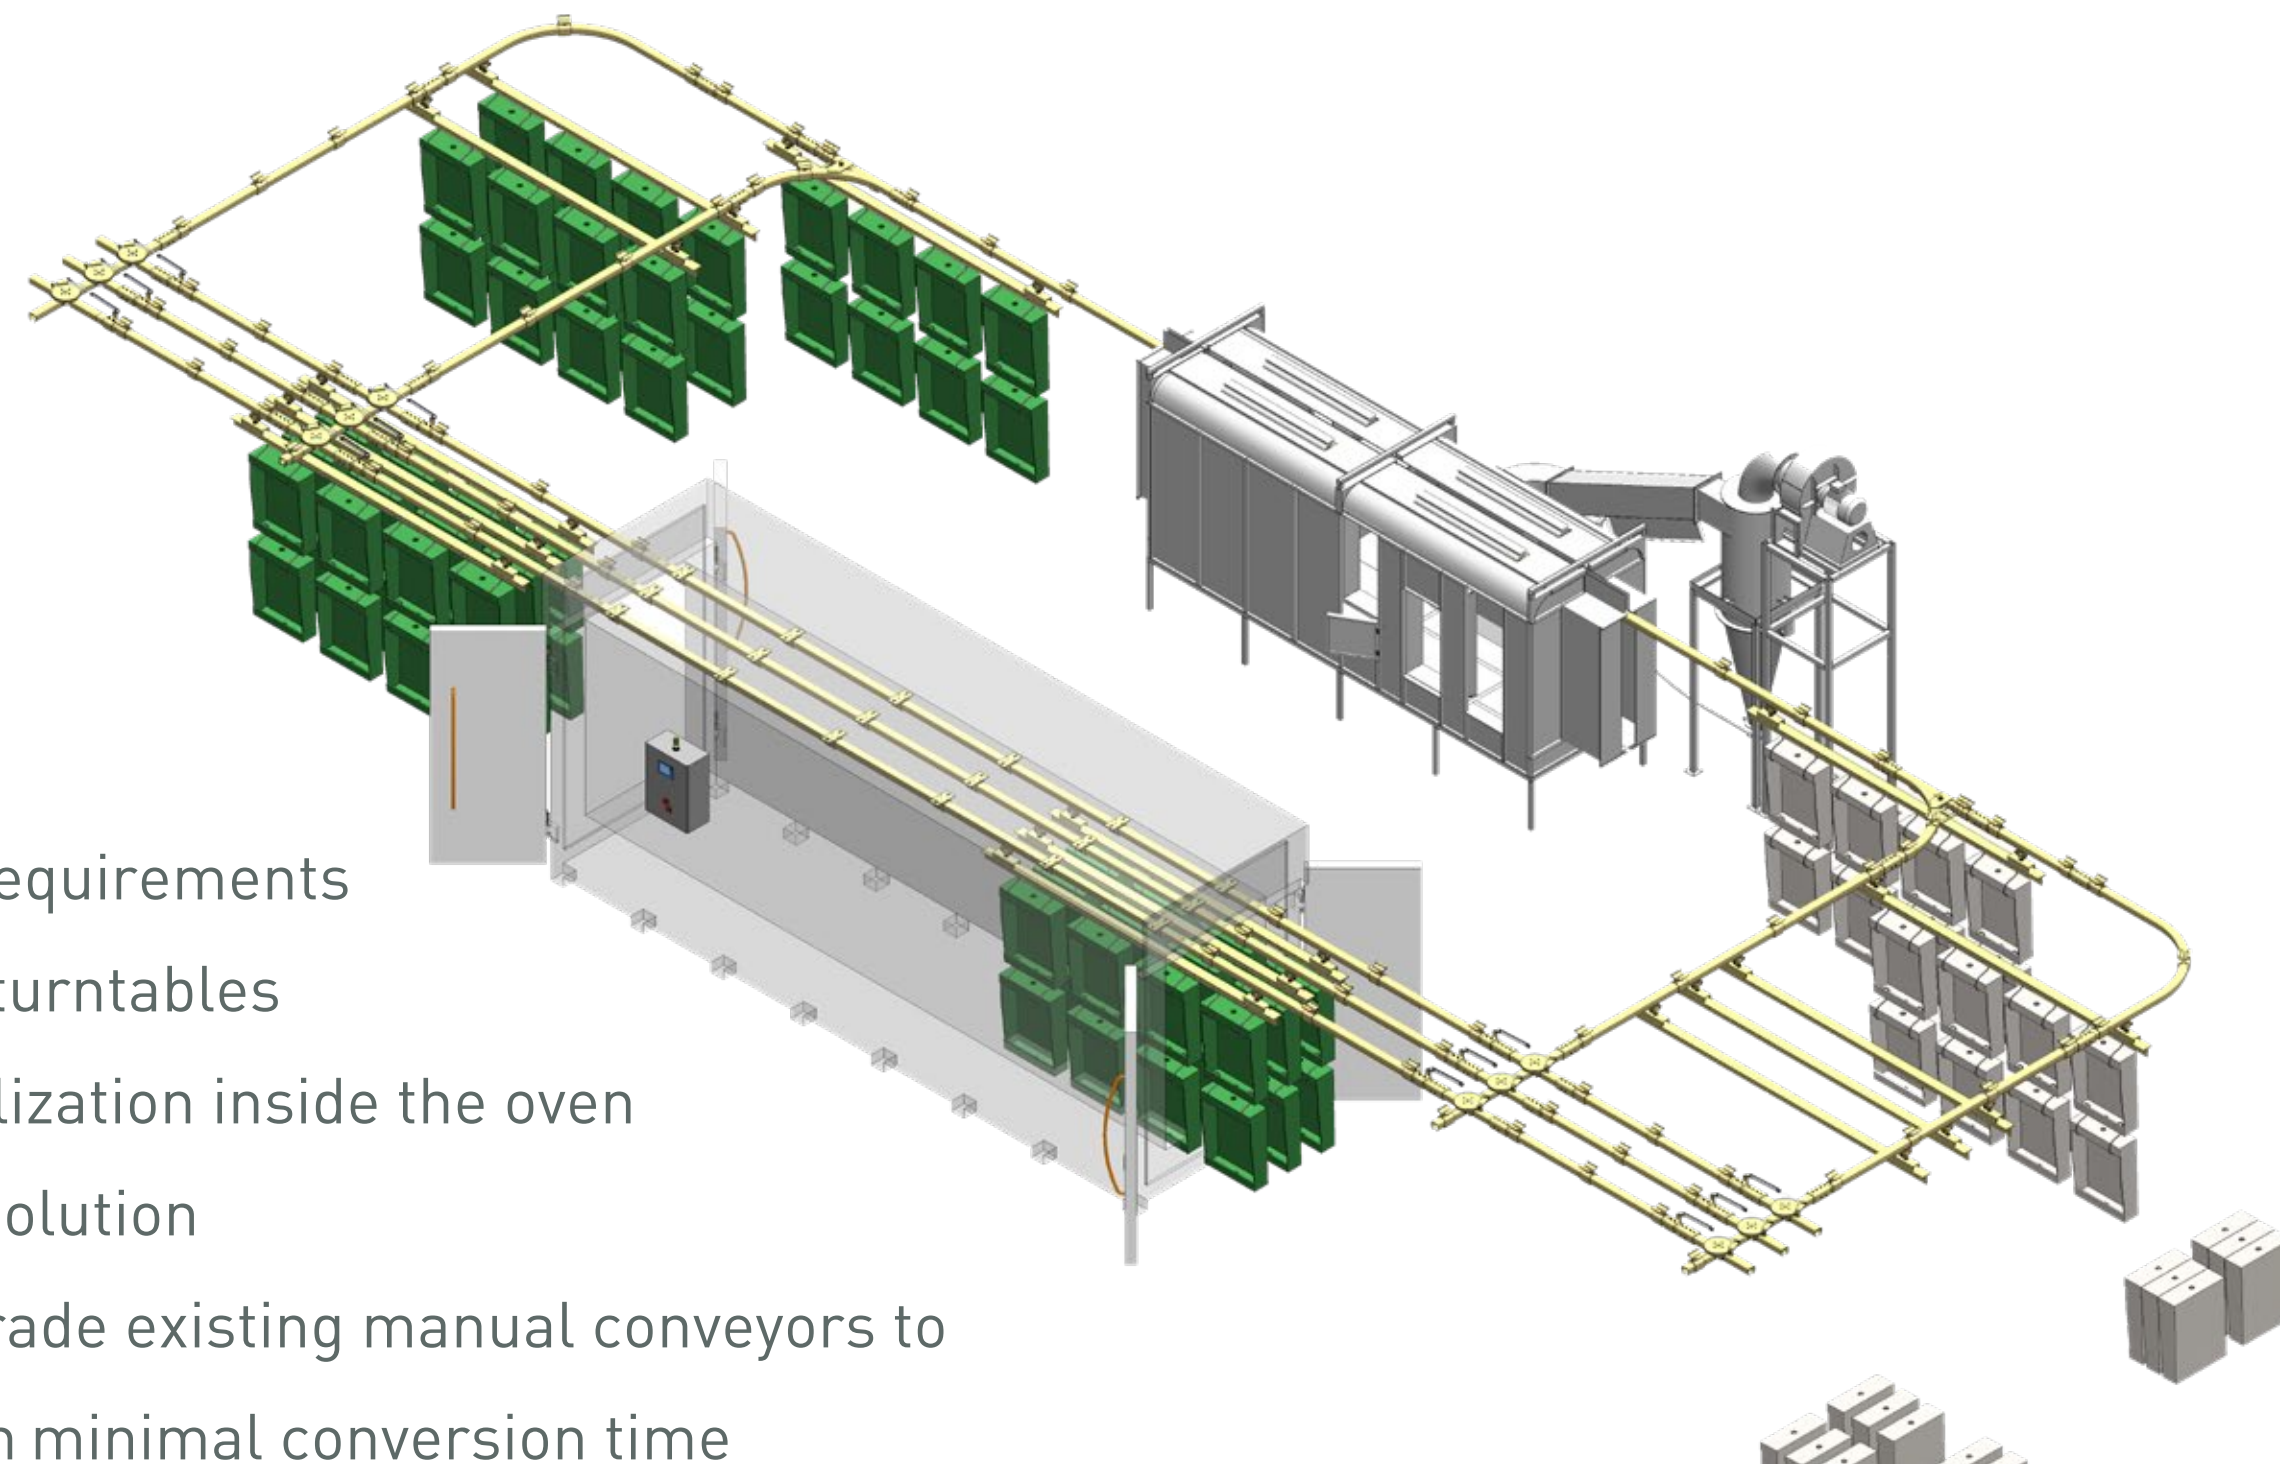

Manual
Solutions

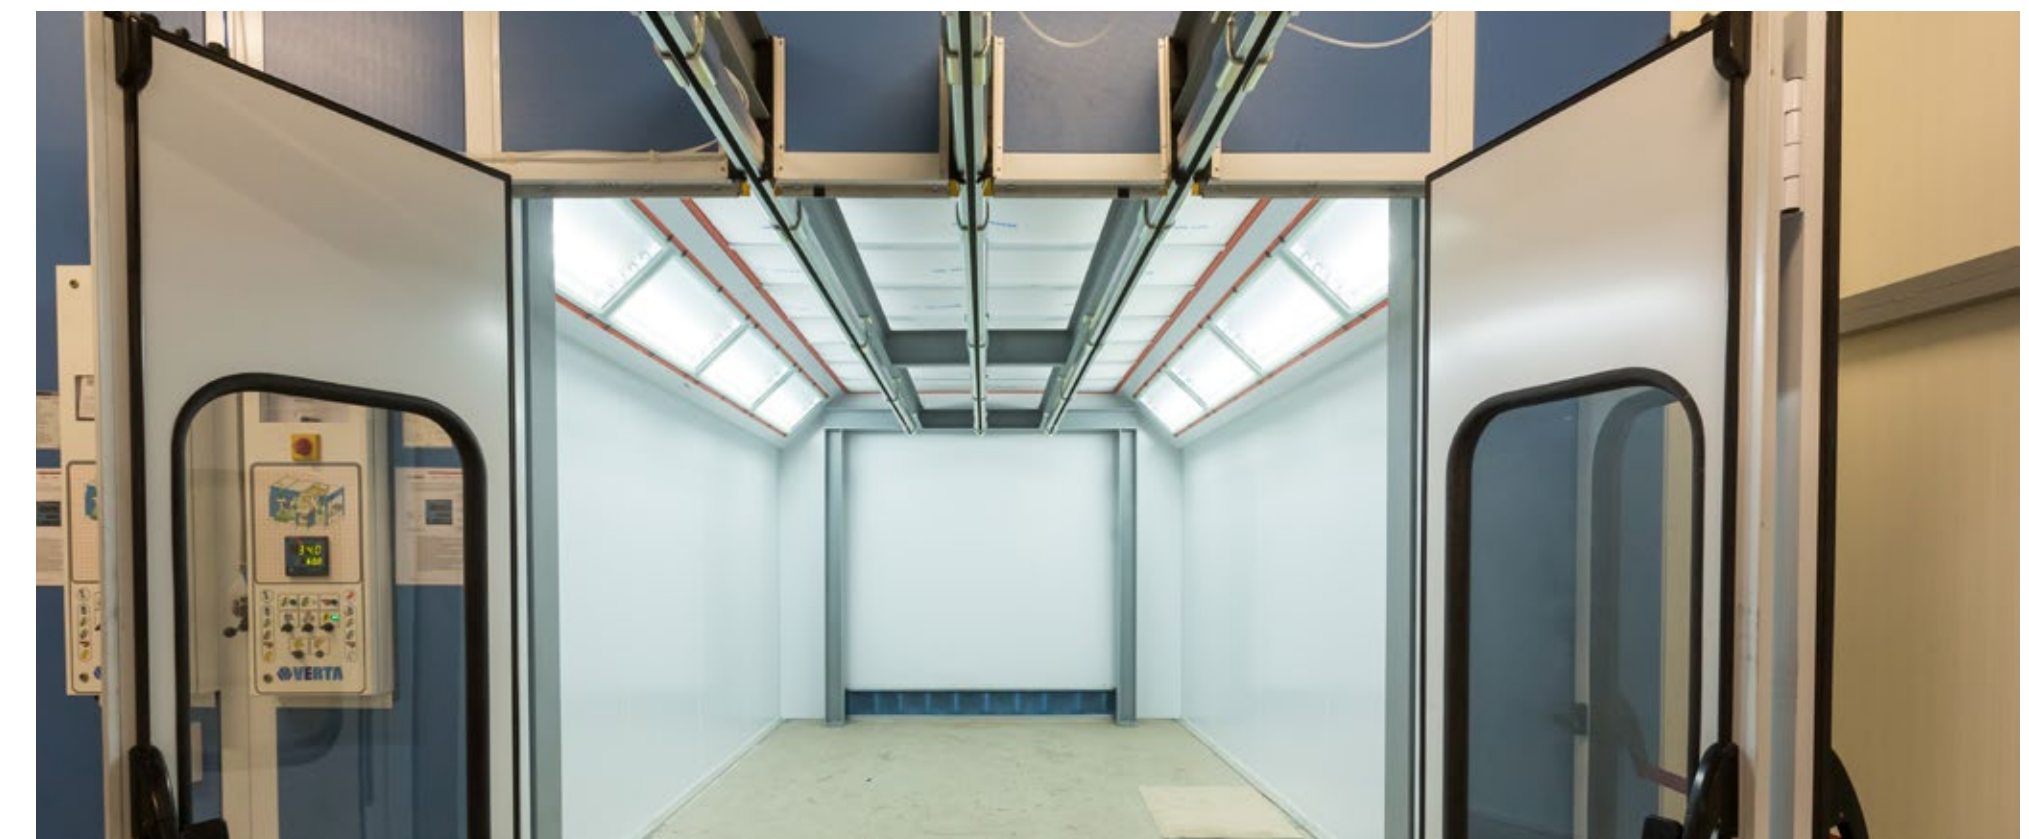

WITH CRANE WAGON

WATCH NOW ▶

- ✓ Minimum space requirements utilizing pneumatic turntables
- ✓ Optimal space utilization inside the oven
- ✓ Value for money solution
- ✓ Possibility to upgrade existing manual conveyors to power solutions with minimal conversion time

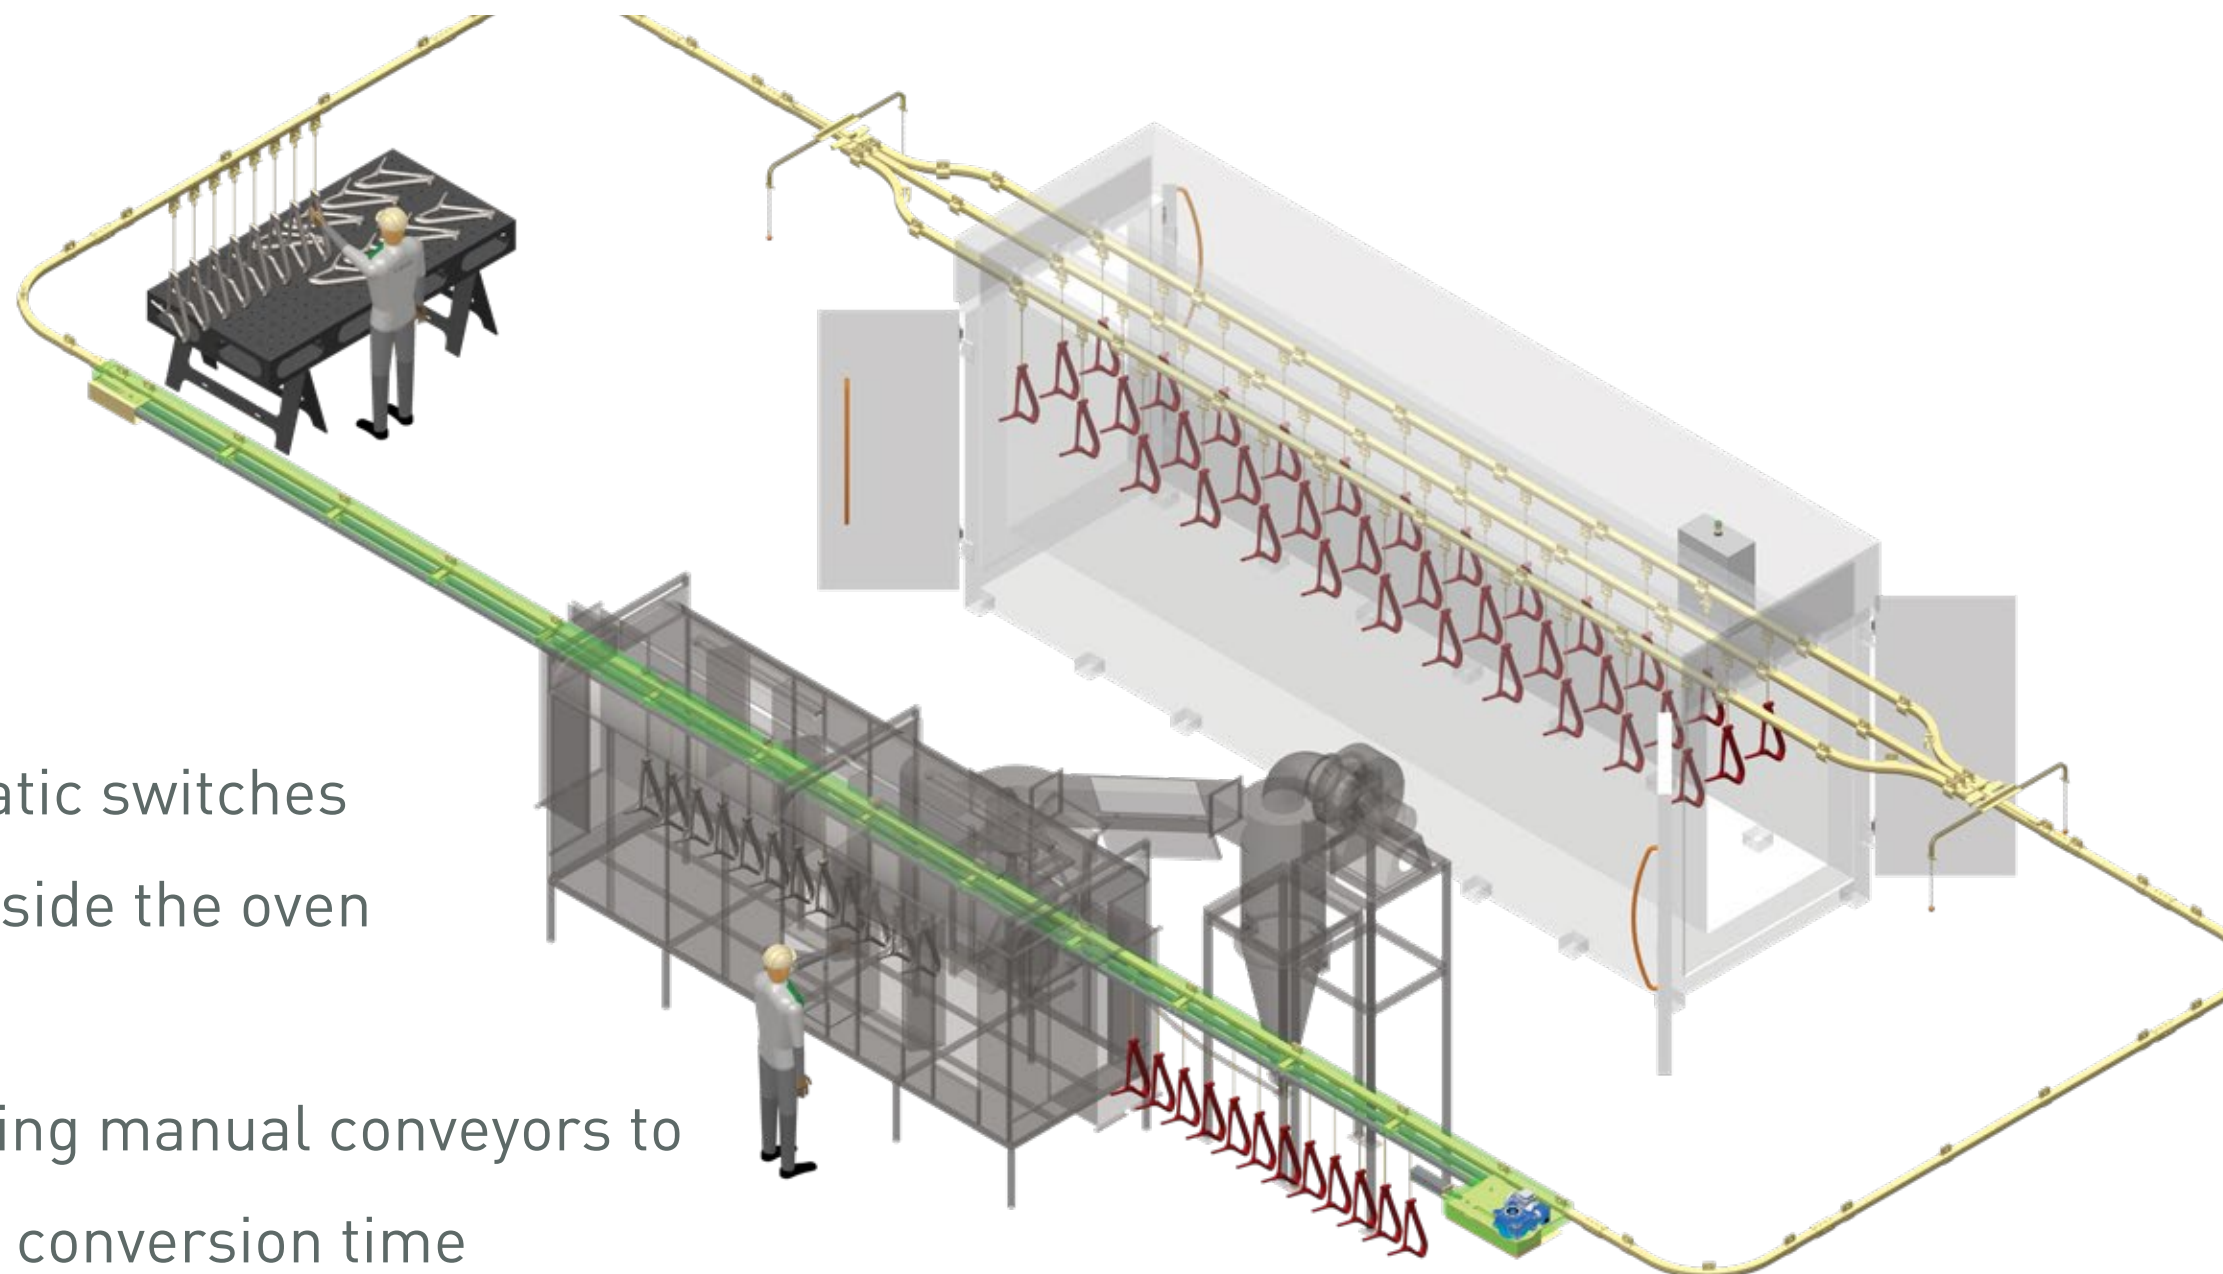

Manual Solutions

WITH PNEUMATIC TURN TABLE SWITCHES

Max Load: 400Kg
NIKO Series: 26.000

- ✓ High productivity achieved utilising mechanically automatic switches
- ✓ Optimal space utilization inside the oven
- ✓ Value for money solution
- ✓ Possibility to upgrade existing manual conveyors to power solutions with minimal conversion time

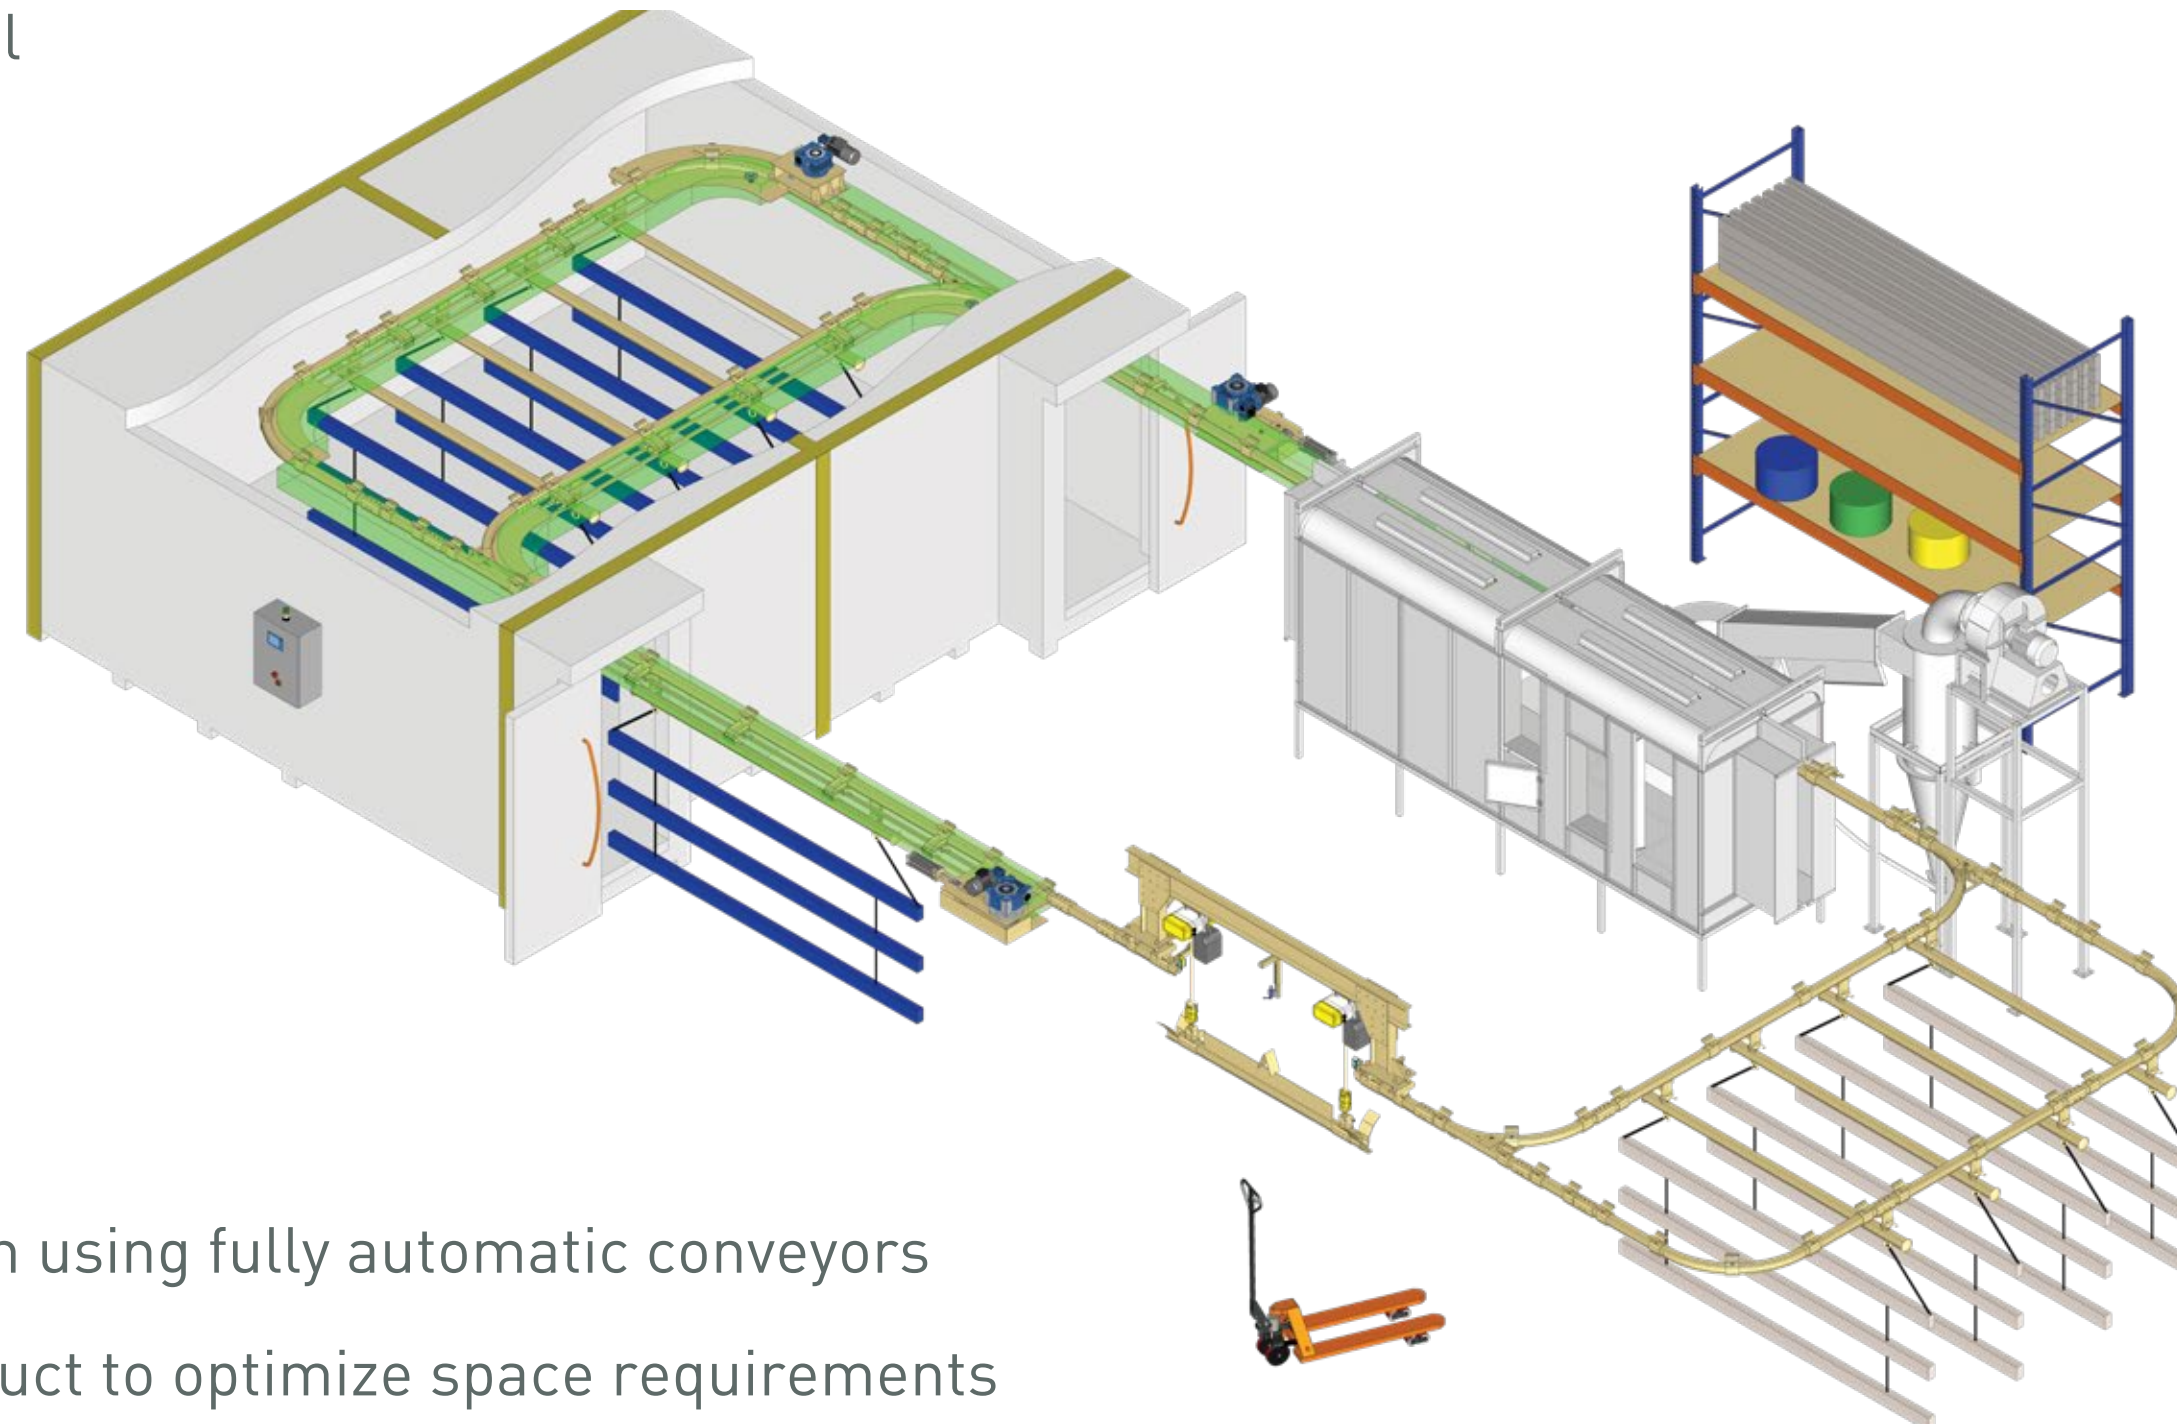

Manual Solutions

**TONQUE SWITCHES WITH 90° BEND
AND SWITCH PULLING CHAIN**

This system utilises a manual conveyor system and powers it through ovens, spray booths or any area where manual operation is not practical.

- ✓ Quiet operation
- ✓ Far more cost effective than using fully automatic conveyors
- ✓ Allows for grouping of product to optimize space requirements

Semi automatic Solutions

Max Load / Trolley: 300Kg
Max Temperature System: 80°
Max Temperature Ovens: 220°

Semi Automatic Solutions

WITH PNEUMATIC SWITCHES
AND POWERED SECTIONS

Max Load / Flight Bar: 250Kg
Max Temperature System: 50°
